

Programming Jam 4.0: How to create a team in hackerrank?

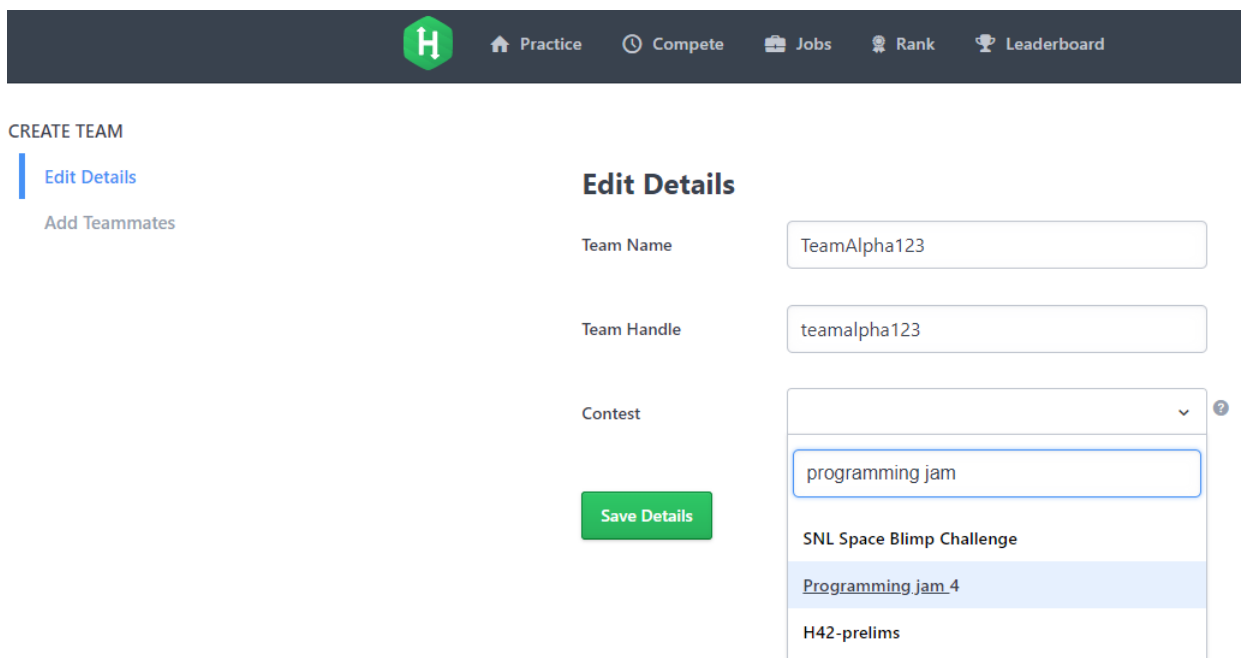

Step 1: Signup and give yourself a username at <https://www.hackerrank.com/>

Step 2: From user menu, select “Settings”

The screenshot shows the Hackerrank user profile page. The top navigation bar includes 'Practice', 'Compete', 'Jobs', 'Rank', and 'Leaderboard'. The user's profile information is displayed, including 'Personal Information' (First Name: B, Last Name: Q, School: Which school did you go to?, Experience:) and 'ACCOUNT' (Settings). The user menu is open, showing 'Hackos: 160', 'Profile', 'Settings' (circled in red), 'Saved Challenges', 'Network', 'Submissions', 'Administration', and 'Logout'. The left sidebar shows 'PERSONAL' (Profile, Teams (circled in red), Bio) and 'ACCOUNT' (Settings).

Step 3: Select Teams, Click on “Create Teams”. Here provide team name. Type “programming jam 4” so the contest appears in the list. Select “Save Details”

The screenshot shows the 'Edit Details' page for creating a team. The top navigation bar includes 'Practice', 'Compete', 'Jobs', 'Rank', and 'Leaderboard'. The page title is 'CREATE TEAM' with 'Edit Details' selected. The 'Add Teammates' button is visible. The 'Edit Details' form includes: 'Team Name' (TeamAlpha123), 'Team Handle' (teamalpha123), and 'Contest' (programming jam). A dropdown menu is open, showing 'programming jam', 'SNL Space Blimp Challenge', 'Programming jam 4' (highlighted), and 'H42-prelims'. A green 'Save Details' button is at the bottom.

Step 4: Add teams mates. You can select upto 3 team members in the same team. Add the usernames of your team members.

Step 5: You are Done and ready to go.
